Serving God with His Computer
One of Carlo's favorite things to do was to play on his computer. His friends told him one when he was only 8 years old. Children were very impressed with how well Carlo was able to do complicated things on it.
Carlo wanted to use his computer to help spread the Good News of our faith with others. He designed four sites which he thought would help people see how good God is to us.
His favorite site was one that spoke about the Eucharistic miracles throughout the world. These are miracles in which the host changes into real flesh. They have even been studied by great scientists who agree that what looked like bread before was now really the body and blood of Jesus. This was the only site that he was able to finish before he became sick.
A second site was a presentation of the places where the Blessed Virgin has appeared throughout the world. This site was finished by his mom.
A third site was on angels and demons, while a fourth one was on heaven, hell, and purgatory. Both of these sites were completed by someone else after Carlo died.
